REPORT ON WORLD NO TOBACCO DAY

The NSS Unit in collaboration with Health and Hygiene Committee and Eco-Yuva Tourism Club Celebrated *World No Tobacco Day*. This Year's theme is "We need food, not tobacco" intends to get tobacco produces to adopt sustainable and nutritious crops by providing awareness concerning marketing options and production alternatives. In addition to this tobacco production has a significantly greater devastating effect on Ecosystems because tobacco farmlands are more prone to desertification in comparison to other agricultural activities. Growing tobacco requires heavy use of chemical fertilizers and pesticides that might result in the depletion of soil fertility resulting in reducing the production of other food crops.

Keeping in view, this year's theme and ill effects of tobacco, students from various semesters deliberated on the said theme. Students on this occasion also took a Pledge to raise awareness amongst the masses about the ill effects of passive and active use of tobacco products, they vowed never to smoke and consume any type of tobacco products in their lives.
