

REPORT ON WORLD RED CROSS DAY

The NSS unit in collaboration with Health and Hygiene Committee celebrated *World Red Cross Day* on 9th May. Red cross day is celebrated every year on 8th May to honor Henry Dunant, the founder of the International Committee of the Red Cross and the recipient of the first Nobel Peace Prize. It is celebrated to encourage people to be kind and empathetic towards everyone. The day emphasizes the importance of humanity and how it can make a positive difference in the world. Every year International Federation of Red Cross and Red Crescent Societies (IFRC) announces a new theme for the celebrations. This year's theme is "Everything we do comes from the heart. This year's theme aims to highlight the efforts of the volunteers at the Red Cross, without whom the movement would not be the same.

Keeping in view the importance of this day, NSS and Health and Hygiene Committee celebrated this day enthusiastically. In the beginning of program NSS Program Officer delivered a speech on Red Cross Day including the historical background of Red Cross Day along with its vision and motto. The students of BG-1st Semester also delivered on the importance of red cross.

Another student gave a brief introduction of first aid as it is the motto of Red Cross. The program concluded with the aim to protect life and health and to ensure respect for human being.
