

VARIOUS ACTIVITIES CARRIED BY ECO-YUVA TOURISM CLUB IN COLLABORATION WITH NSS UNIT AT PICNIC SPOT KOKERNAG

Cleanliness is both the abstract state of being clean and free from dirt and the habit of achieving and maintaining that state. Eco-Yuva Tourism Club volunteers took initiative to conduct the cleanliness drive at the picnic spot Kokernag. All the plastic and non-biodegradable garbage present in the garden was collected during the drive. After the cleanliness drive an interaction session with garden visitors was also conducted.

VISIT TO ASIA'S LARGEST FISH FARM PROJECT AT KOKERNAG

NSS Volunteers along with Eco-Yuva Tourism Club members visited the Asia's largest fresh water Trout fish farm. This farming project at Kokernag was set up with the European Economic Communities assistance in 1984. A total of 50 students visited the farm. The tour was organized in order to develop an appreciation for the complexity of the fishing industry by practicing the skills of observing, recording and collecting during a fisheries field trip.

SAY NO TO DRUGS DRIVE

Eco-Yuva Tourism Club members and NSS Volunteers also carried out a drive at this spot on "Say No to Drugs". As large number of people were present there, they were briefed about the ill effects of drugs
