## Report on Plantation Drive

Trees represent life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health, and also reduce carbon footprints. Keeping this in mind NSS unit of GDC Rajpora in Collaboration with Department of Environment Science and Department of Education organized a mega plantation drive on 25/03/2024. The objective of this tree plantation drive was to create awareness about **"Plant Tree – Save Planet"**. The initiative aimed to save the environment, promote afforestation, and make the surroundings clean and green through a major tree plantation activity. As per program guidelines, NSS volunteers planted various plants like Cyprus, pines along with flowering plants at their available places. Approximately **70 tree saplings** were planted during this activity. In this drive more than 50 NSS volunteers participated. On this occasion college Principal Dr. Gazala Gaiyas was present with NSS Programme Officer Nahida Shafi, she planted a Conifer sapling. She urged the volunteers to ensure proper care of the saplings. She said the college and students were happy to be part of the tree plantation drive.
